Experience

Advantech **Nov. 2022 — Present**
UI/UX Designer

Product Design
Responsible for UI/UX design for smart healthcare and windows-based diagnostic tools, collaborating with PMs, RDs, and AEs to clarify product specifications and propose feasible design solutions.

AiH Design System
Led the development of Advantech AiH product line's design system, working with the each product design owners to audit existing products, including styles, components, devices, and use cases. Consolidated findings into the first version of the Advantech Smart Healthcare Design System, defining component usage guidelines to ensure design consistency and streamline development of maintenance for the RD team.

Freelancer **Jan. 2022 — Nov. 2022**
UIUX Designer / Graphic Designer

Create a learning management system (LMS) based on Patient-Centered Communication for students at NYCU School of Nursing. Design user experience and visual concept, collaborating with developers, and project managers to build this platform.

Flytech **Sep. 2019 — May 2020**
Product Marketing — Graphic Designer

Exhibition Design
Participate in the key vision design of the booth in trade shows.

Product Marketing
Product Sales kit planning, including product demo video and marketing social media material.

Offical Website Planning
UI/UX design and maintenance for the new version of the company's official website.
